OVERVIEW · 14 OCTOBER 2026 · PREVIEW, NOT OPEN FOR ORDERS

Apparel shops

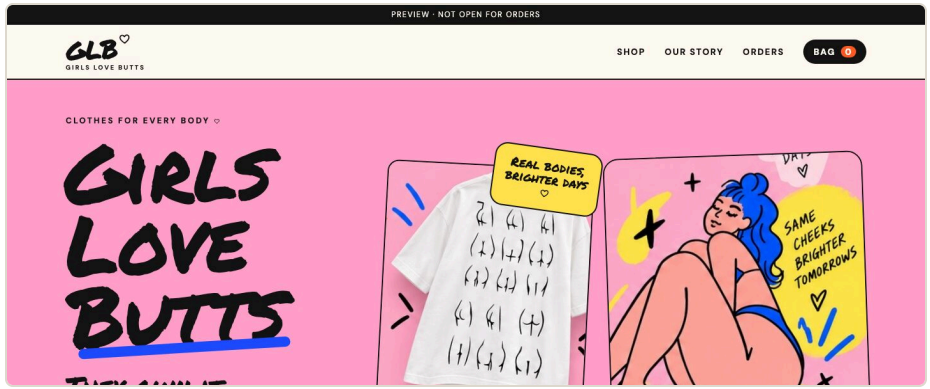

Four brand shops on one shared storefront. Each has its own layout and look; the cart, checkout, pre-order drops and order pages are shared code.

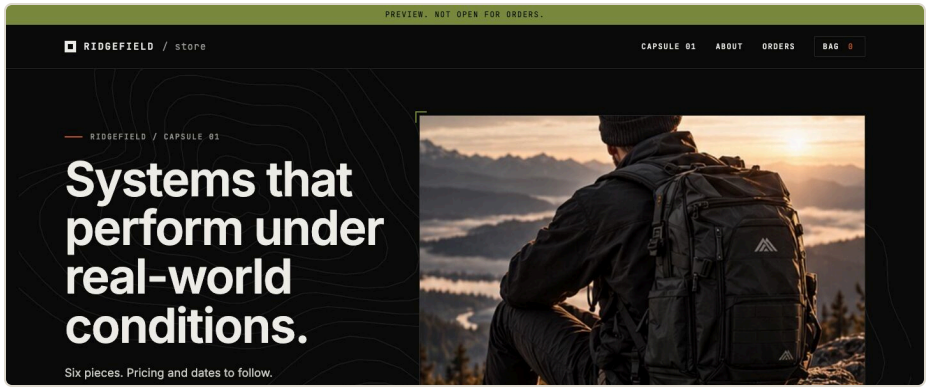

Butts Studios store.buttsstudios.com

Runwae Apparel runwaeapparel.com

Girls Love Butts (GLB) girlslovebutts.com

Ridgefield store.ridgefieldtech.com

Shared seed

One core (catalog, cart, checkout, drops, order lookup, policies); a brand is added by copying a template folder.

One focus item per shop

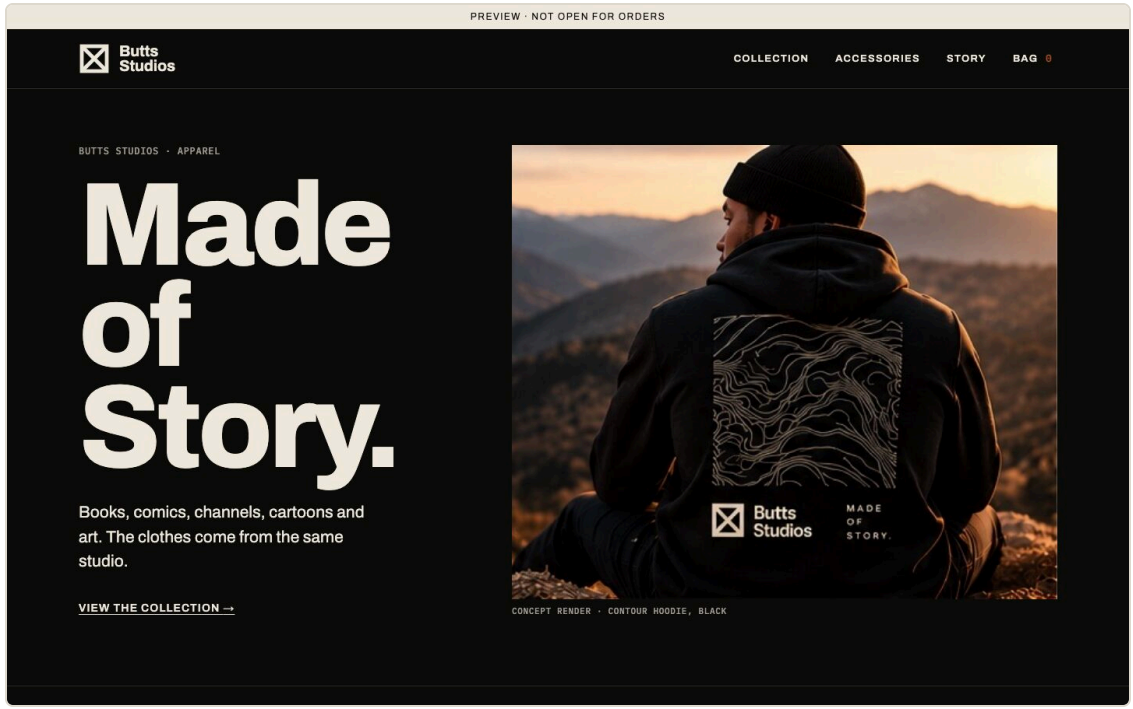

Everything else shows honestly: next drop (Notify me), in development, or archive.

Status

Built and tested locally (48 of 48 tests). Checkout is off; nothing is deployed.

What's built, what's next

BUILT (ALL FOUR SHOPS)

- Home, collection, product, story, cart, order lookup, policies and thank-you pages, with a phone menu
- Cart without accounts: guest checkout, saved in the browser; mixed carts say “ships together by <latest date>”
- Pre-order drops: windows, ship-by date shown before purchase, supplier order totals at close
- Item states: available, pre-order, next drop (Notify me), in development, archive; “Sold out” only with a real sales record
- Multi-item Stripe checkout (test mode only, switched off)
- 48 automated tests; checks that block banned items and wording

NOT BUILT YET

- Order log, confirmation and shipping emails
- Real Notify-me list (currently logs locally)
- Printful sync and shipping labels
- Deploy to the four domains, and live payments (your go)
